sire to dispose of it even at that rate. In other departments of finance there was no particular change. Money is still very close, though none of the Bankers complained of any particular pressure. The difficulty of obtaining discounts continues, and the Paper done from day to day in Third-street is triffing in amount. In outside circles there are few lenders, even the high figures at which they can buy good

Paper seeming to offer little inducement. New Orleans Funds were still in request yesterday, but as hardly any one was drawlbg, there was a ready demand for Banknotes at 14 premium.

Uncurrent Money was still heavy, especially the Pennsylvania, Virginia and Maryland Banks, but they were not quotably higher. Our rates remain as follows:

Business yesterday was dull, of course, for the season, and every one waiting for new

developments. In the afternoon the dispatches from New York to the Chamber of Commerce, announcing an easier Money Market there, and an advance of 3@6 per cent. in Stocks, had rather a favorable influence here, but did not

seem to affect Produce in any way. Flour remained very dull and unsettled yesterday, 200 brls. extra selling at \$4, which was below the views of most holders. Prices were so irregular indeed, throughout, that quotations could not be given. Whisky declined 14c., and 1,700 bris. sold at 1314@ 1354c. No alteration occurred in Grain or Groceries. In Provisions there were few transactions; Mess Pork selling freely at \$14. Lard was dull at 8%@9c., and Green Meats

at 4c., 5%c. and 6c. for Shoulders, Sides and The Hog Market seemed even more depressed yesterday than on Monday, and there was little disposition to operate. Holders asked \$5 for good Hogs, and purchasers offered \$4 75. The sales were only 700 or 800, while the receipts for the day were 7,000,

and for the week 32,000 head. The following are the Imports and Exports during the twenty-four hours ending

veterday noon: Imports—Apples, 135 terrels; Barley, 226 whels; Butter, 80 packages; Corn. 226 bushels; Cheese, 131 boxes; Flour, 1,785 barreis; Hay, 248 bales; Hogs, 5,135 head; Lord, 159 barrels; Molasses, 396 barrels; Oats, 3,612 bushels; Pork and Bacon, 60 barrels; Pota-

Whisky, 1,935 barrels. Yesterday's Louisville papers say: Yesterday's Louisville papers say:

There has been no actual change in the price of Hogs since our last weekly report, but there have been very limited transactions. The only actual sales reported during the week were 1,000 head, on Tuesday last, at \$5 net cash 1,000 head, on Wednesday, at the same rate, and 900 head, on Saturday, at \$5 net, half cash and the balance in sixty days. In many instances drovers refuse the prices offered, and pack on their own account, and thus during the week several thousand head have been arranged for by packers on commission.

During the week, 32,776 Hogs were slaugh-tered around the Fails, and during the season, 132.633,

The foreign trade of the port of New York does not, thus far, reflect the consequences of the prevailing panic. Our exports of produce continue enormous; the ratio of increase over last year has not been materially affected by the decline in Bills or the panic in Money. Our imports last week were larger than those of the corresponding week last year; but this is not the general rule. From all that we can learn from importers, the orders that are being sent to Europe for goods are very light, indeed. There is really no actual export of Specie from New York at present. The small amounts which are reported as going abroad in the steamers come from California to be reshipped to England, and are only in New York in

A gleam of comfort flashed over the wires to-day from Washington, and the Stock Market had a better look at the opening of business in the morning. Prices were better for State Stocks, netwithstanding a free supply of Missouris and Tennessees, and the Railway Share List had an improving tendency throughout, until Rock Island came up in the order of calls. In this Stock there was decided weakness, and, somewhat to the surprise of the whole Board, the prices fell from 48 to 45, under moderate sales. This sudden and unexpected depression threw a wet blanket upon the market, and the dealings which followed were very much influenced by it. Immediately after the Board, this Stock sold cos ut b 41, and there was a chared Hogshead Hoops.

CHEESE—The demand has been quite limited during the week, and prices declined a shade, closing at 9c. for selected Western Reserve, 9%c. for Hamburg, and 10%c. for ing the week, and prices lower and irregular, we quote fair at 13%c., good 14c, and prime 14%c: in the small way to the country 14:

extent at the west within the last six months, as a Banking basis in the expansion of the Currency, while a large crop movement, and a revival of general business has stimulated. The extraordinary turn which matters have taken in the political agitation, forces a contraction of the Currency, while at the same time a decline in the market value of the Bonds, and the inforcement of Western Banking laws compels assertifican of securities. CATTLE SHEEP AND HOGS—The market for Beef Cattle continues very dull, and prices irregular the receipts are in excess of the demand. The sales during the week comprise 700 head. We quote common at \$1 25@1 50; fair \$1 75@2; good \$2 25@2 50, and prime to choice extra \$2 75@3 per cental gross. Sheep dull at 75c. to \$2 25 each. Hogs have been very dull during the week, though the receipts have not been large, but the demand has been extremely limited, and prices have declined fully 50c. per cental, and prices have declined fully 50c. per cental, and prices have declined fully 50c. per cental, and prices have failing offered at \$5, while it was difficult to find buyers at any thing over \$4 75, and light sold at \$4 62@4 80. The receipts during the week were about 32,000 head.

EGGS—The supply is light, and prices have advanced to 20c. per dozen, packers' count. Banking laws compels assarrifice of securities.

In the present state of the Exchange market at the West, however, the losses are diminished from 7 to 8 per cent, by using the proceeds to meet demands in that section of the country. The sentiment in Wall-street is not very hopeful in regard to the revo-lutionary movement of the South, although ginning to calculate upon the prospects and value of property under the worst aspects which the question may develop. There is an abundance of Money for investment in whatever can obtain confidence; and the peculiar business advantages of railways—

in the minds of men who seek for the safest employment of Money. After the Second Board the market was very firm, and the FEATHERS—The market continues dull and prices are but feebly sustained. The whole range of the market, for inferior to tendency at a late hour was to better prices.

Monday's New York Herald remarks reprime, may be put down at 31, 35, and 40c. FRUITS—Prime Western are retailing to city dealers at \$1@1 50 per brl., and Eastern at \$2. Dried Apples are nominal at 3@4c, per pound, and Peaches at \$6@6½c. There is no demand except a limited retail one. There is no change in foreign. Lemons are selling at \$5@6; M. R. Raisins at \$2 50@2 75 and Layer at \$2 62@2 85 per box, and Figs at 10@12c. per pound. No change in Nats. The Money Market is about as it was a week ago. On call, the Brokers are freely supplied at 7 per cent. But there is no market for Paper. The best gilt-edge sells, now and then, at 12, 15@18 per cent.; but one

and then, at 12, 15@18 per cent.; but one must look a long time even to find a buyer at these rates. There is reason to believe that the stagnation in the Discount Market is only temporary. People who have Money want to see the effect of our crisis on England before they part with it. They want also to see some daylight at Washington. Civil war would, of course, put an end to commerce altogether, and would break a large number of firms now considered undoubtedly solvent. This contingency must be out of the question before there will be any active demand for Paper. If the politicians at Washington succeeded in arranging a compromise by which the eventuality of civil war was rendered impossible, it is probable that the secession of one or more of the Cotton States would not impede a general recovery in our	selling at \$5696; M. R. Raisins at \$2 50 2 75 and Layer at \$2 62@2 85 per box, at Figs at 16@12c. per pound. No change Nuts. Foreign Exchange closed, yesterday, at a decline from the price which had ruled for the Cunard steamer of Wednesday. The closing prices were about 103@½ for Banker's Bills, and 100@101 for mercantile Exchange. The decline is due to the very light demand for Bills from the importers. Importing-houses are in no hurry to transmit at the present time. They owe very little, as a rule, to the other side; and, until a FLOUR—Nominally, the market has been unchanged during the week, the demand has been of the most limited nature, and chiefly local, to meet the wants of the city dealers, or to fill small orders from the South. It is or to fill small orders from the South. It is rather difficult to give uniform or reliable quotations, just as much so as it was last week. At the close, superfine, when placed upon the market, would not bring over \$4; indeed it was offered at this rate on Monday, without meeting a buyer; yet it would be necessary to watch the market a day or two to find any one disposed to take this rate, and for small lots \$4 25 was paid. Extra ranges firm at \$4 40 to \$4 75 and extra tle, as a rule, to the other side; and, until a settlement be effected at Washington, they ranges firm at \$4 40 to \$4 75, and extra family at \$4 90@5 25, the latter rate for a fancy brand white wheat. The receipts are generally think their money safest in their own hands. If political matters could be ar-ranged we should probably witness a lively advance in Foreign Bills, as the supply from the South is greatly reduced.

GRAIN—There has been nothing of importance done in Wheat during the week.

The receipts have fallen off, owners not being disposed to take the prices millers are willing to pay-80@90c,-so that prices must be regarded as merely nominal at 90c. The receipts of Hogs to-day were 298 dressed and 2,450 live, or a total of 2,748, against 4,515 on the corresponding day in 1859. The market was dull, and at the close and \$1, which are the rates asked. Corn has been in better demand, and prices advanced to 32c. for ear, about the middle of the week, 32c. for ear, about the middle of the week, though closing firm. At the eastern stations it brings 39c. Owing to the length of cartage Oats were dull, without change in prices. About 7,000 bushels sold during the week, at 29c., in bulk. Rye dull, and prices declined to 55@55c. Barley dull, and no demand except for prime, which brings 75c.

GINSENG—The market continues unsettled and prices nominal; dealers will not buy, except at a material decline.

HAY—A dull and heavy market all the week, and prices lower closing at \$14 50@15 for prime Timothy, in bales, on arrival, taken at the river or railway stations; the live Hogs were 10@15c, per 100 pounds lower, the closing rates were \$4@4 37½ for common to heavy lots; a few choice lots were sold early at \$4 40@4 50, but at the close \$4 373\(\angle \) were the outside prices. The following are the receipts of Hogs and Cattle since October 1, and for the corresponding period in 1850:

The sales of Hogs were 144, averaging 250 pounds, at \$4 12½; 100 averaging 265 at \$4 25; 55 averaging 285 at \$4 25; 100 averaging 245 at \$4; 250 averaging 288 at \$4 37½; 55 averaging 275 at \$4 25; 200 averaging 260 at \$4 25; 59 averaging 300 at \$4 50.
